OPTIMAL
PULSE TECHNOLOGY
SUPER HAIR REMOVAL

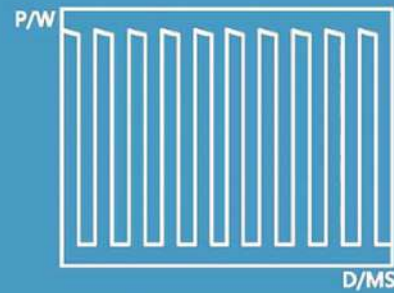

OPT-A

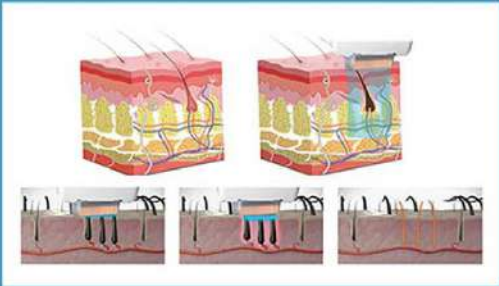

- High peak power, shorter pulses – optimal for IPL skin treatments using photorejuvenation and hair removal;
- Control pulse shape by equalizing energy distribution over the entire pulse or sequential pulses
- More comfortable, patient-friendly procedures lower effective fluences

Ordinary fast removal output energy

OPT hair removal energy output

The advertisement features a central image of a woman in a white bra and underwear sitting on a white surface. Surrounding her are several small inset photos showing the IPL device being used on different parts of her body: her face, shoulder, arm, and leg. The text 'Effective' is written in large blue letters across the bottom left, and 'Active' is written in large blue letters across the top right. Below 'Active' is the text 'pain-free, hair-free for all hair types and all skin types'.

One Applicator for All IPL Indications
5 Changeable Filters in One

40mm*8mm FSR

50mm*10mm FHR 690nm-1200nm

DETAIL

PRODUCT
PRESENTATION

UK xenon lamp for at least
1,000,000 lifespan

Real **sapphire** crystal for high
transmittance

Big spot size for fast
hair removal

Aggressive cooling for **safe &
comfortable** treatment

480nm

530nm

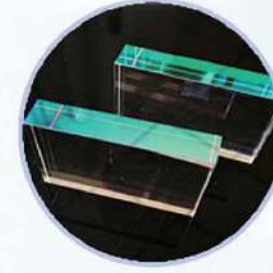

560nm

590nm

690nm

Optimized Play-and-plug connector for less failure rate

THE MOST ACCLAIMED PRODUCT

Touchscreens

Easy operation, Recommended treatment setting,
Online self-checking, Intelligent error reminding.

10.4 inch Intuitive & foldable display screen

BENEFITS

High power output, **more stable**, more uniform energy

Big spot size with **1-10HZ** repetition rate for effective and quickest treatment

Super **sapphire** contact cooling protect the skin all the time

1,000,000 shots longer lifespan & affordable consumable part

PARAMETER

PRODUCT PRESENTATION

Screen: 10.4 Inch Color Touch Screen

Treatment items: Hair Removal / Multi-function Skin Care

Handpiece connection: Fast connected

Handpiece: Two

Light source Intense: Pulsed Light (IPL)

Crystal material: Imported sapphire

Spectrum: 480nm 530nm 560nm 590nm 690nm

Spot size: 50mm×10mm /40mm×8mm

Shot frequency of FHR and FSR: 1~10Hz

Delay between continuous shots of HR and SR: 1-2s

Light pulse number: 1-10

Energy Density: 1-60J/CM²

SHR Power: 3000W

Power supply: AC220V±10%,50Hz±1Hz / AC110V±10%,60Hz±1Hz

Physical dimension: 440x390x1000mm
